

Temvit-N

Vitamin B₁, B₆ & B₁₂

Presentation:

Temvit-N Tablet: Each tablet contains Thiamine Mononitrate BP (100mg), Pyridoxine Hydrochloride BP (200mg), Cyanocobalamin BP (200mcg).

Descriptions:

Temvit-N is a special preparation of vitamin B₁, B₆ and B₁₂. The vitamins B₁, B₆ and B₁₂ are indispensable for a normal course of the nervous metabolism.

Indications:

Temvit-N is indicated for the treatment of B₁, B₆ and B₁₂ deficiency syndrome. It is also indicated for the treatment of:

- Diabetic neuropathy
- Peripheral neuralgia
- Lumbago
- Myalgia
- Optic Neuritis
- Sciatica
- Facial neuralgia
- Intercostal neuralgia
- Spinal pain

Dosage & Administration:

Tablets may be administered in a dose of 1 to 3 tablets per day or as directed by the physician.

Side Effects:

Generally well tolerated. However, a few allergic reactions may be seen.

Precautions:

Cyanocobalamin should not be given before a diagnosis has been fully established because of the possibility of masking symptoms of subacute degeneration of the spinal cord. Cyanocobalamin is not a suitable form of Vitamin B₁₂ for the treatment of optic neuropathies associated with raised plasma concentrations of cyanocobalamin.

Contraindications:

Should not be used in the patients on Levodopa therapy and hypersensitivity to any of the active ingredients.

Use in Pregnancy & Lactation:

Oral tablet form is recommended but injectable preparation is not recommended due to presence of benzyl alcohol.

Drug Interaction:

No such drug interactions have been reported.

Overdose:

If there is known overdose then treatment is symptomatic and supportive.

How Supplied:

Temvit-N tablet in Strip: Each box contains 6x10's tablets in blister pack.

Temvit-N tablet in Pot: Each pot contains 30 tablets.
